

## ***Graffiti Removal Solutions***

High-Performance & Environmentally Friendly

Graffiti is one the most costly and destructive problems affecting architectural and commercial structures. An estimated 12 billion was spent on graffiti in the US alone last year. New and existing construction, commercial, residential, industrial and historical landmarks are greatly effected. Educational and DOT structures cannot keep pace with this problem as graffiti damages both interior and exterior substrates. Traditional removal methods for graffiti have been less than effective and generate hazardous waste. Stringent Federal, State and Local regulatory bodies have mandated that environmentally safe, VOC compliant products be used in the prevention and removal of graffiti.

**Los Angeles County Metropolitan Transportation Authority** is a designer, builder and operator for one the country's largest counties as it services a radius covering more than 9.6 million people.

Graffiti is a constant battle for MTA infrastructure and vehicles. The MTA was in need of a safe and high-performing graffiti removal product that wouldn't damage underlying surface.

The LA MTA selected the TWL-200 Graffiti Remover Towels as the product of choice to clean and maintain buses, bus stations and other infrastructural pieces.

The MTA is a volume user of the Graffiti Remover Towels and has been a customer since 2000.

### **WARRANTY & DISCLAIMER**

The information provided is to be used as a guide and customers should perform their own tests to ensure performance in their application. All data, statements, and recommendations made herein are based upon information we believe to be reliable, but are made without any representation, guarantee or warranty of accuracy. All statements, technical information and recommendations contained herein are based on tests SEI Chemical believes to be reliable, but the accuracy or completeness thereof is not guaranteed. SEI Chemical warrants its products will be free from defects when shipped to customer and should work in a manner consistent with its product data sheets should the products be applied in a commercially acceptable manner as determined by SEI Chemical. SEI Chemical under obligation of this warranty shall be limited to replacement of product that proves to be defective. To obtain replacement product under this warranty, the customer must notify SEI Chemical of the claimed defect within three months after shipment of product to customer. All freight charges for replacement products shall be paid by customer. SEI Chemical shall have no liability for any injury, loss or damage arising out of the use of or the inability to use the products. Before using, user shall determine the suitability of the product for the intended use and assumes all risk and liability whatsoever in connection. No representation or recommendation not contained herein shall have any force or effect unless in a written document signed by an officer of SEI Chemical. The foregoing warranty is exclusive and in lieu of all other warranties expressed or implied. In no case shall SEI Chemical be liable for incidental or consequential damages. Limited warranty for industrial or commercial use only. Keep out of reach of children, keep container tightly closed, not for internal consumption. Consult material safety data sheet before use.
